PORTFOLIO
https://robinvikstrom.netlify.app/

I have a broad background in sales, business development and client relationships, with experience across sectors including construction, automotive, media and technology. For several years, I have worked with both new and existing clients, major deals and long-term partnerships.

I enjoy building relationships, understanding clients' needs and developing solutions that create value. I readily take responsibility, move work forward and identify opportunities to improve ways of working. My technical understanding and experience in digital development complement my commercial background.

I am motivated by combining business, people and development, and value the opportunity to contribute ideas and help shape how a business evolves.

WORK EXPERIENCE

Head of Sales
Aug 2026 – Present

Solvigo AB

- Worked in sales, client acquisition and business development at a company developing AI-based solutions for businesses.
- Contributed to the development of the company's commercial offering, marketing activities and ways of working, focusing on understanding clients' needs and creating business value.
- Worked closely with developers to define product offerings and make the solutions clearer to prospective clients.
- Initiated and drove the development of an internal CRM and sales system by defining requirements, planning the work and providing instructions to AI tools that generated the code.
- Developed automated workflows for prospecting and client communication tailored to individual companies. The system was used daily, sent approximately 50 emails per day and helped secure client meetings.
